

## John & Dina Musacchio

- AGWMLAC Missionaries to Latin America Caribbean

As Assemblies of God missionaries it's exciting to say we have been assigned to serve as Regional Leader over Convoy of Hope's ministries in the region!

This is a unique opportunity to empower local churches with expressions of compassion as we serve to restore human dignity with the love of Jesus. Over the past months we've been engaged with overseeing compassion ministries throughout Latin America and the Caribbean. Together we are bringing Hope to people as your prayers and financial partnership keep us going!

Here's what that looks like.

Together we are partnering with local churches and others through:

- Children's feeding programs for the most vulnerable and malnourished.
- Women's empowerment programs to care for the physical and spiritual needs of their families through nutrition, hygiene, education and literacy, and spiritual development.
- Micro Plus training for small business activities that create sustainability for families.
- Agriculture interventions that boost people's ability to be self-sustaining.

Pray with us about:

- Launching new sustainability projects in Guatemala.
- Helping the Bahamas in long term recovery efforts after it was devastated in September by Category 5 Hurricane Dorian.
- Severe unrest in Haiti that is affecting feeding efforts to the most vulnerable.

We always want to be obedient stewards of God's Call on our lives.  
Thank you for believing in us!

- John & Dina Musacchio

#### EL SALVADOR

After participating in the Micro Plus small business training Ericka has started her own food cart business allowing her to generate income to help buy the family vehicle - a motorbike.

Even though they live in a neighborhood controlled by gangs, these sweet kids (about fifty of them) can drop in daily to this community center and receive a nutritious lunch, hygiene lessons and a Bible story.

#### NICARAGUA

Agriculture intervention combined with Micro Plus training has blessed Lucia and her family. Not only can they grow enough to sell, but the

Providing a nutritious meal (and for some the only meal of the day) is critical for these little

ones. What they know is that it tastes good. What they don't know is that it is giving them the brain power they need to develop and learn.

training came by way of our team through the local church. As a result of God's provision, her husband has given his life to the Lord!

#### HONDURAS

These women work in the dump and some can't read or write. But not for much longer because they are being educated and trained to start their own small businesses at this Mother's Club/Micro Plus program at Sol de Justicia Assembly of God.

These moms, some very young, are being coached on how to lovingly nurture and stimulate their little ones' minds and bodies. So grateful for this AG church that hosts our programs!

#### GUATEMALA

One year after the deadly eruption of Volcano Fuego, our Convoy of Hope team carried out a disaster preparedness training at Vida AG church that was attended by 97 pastors, leaders, and community partners from 7 different countries! [Click for video.](#)

The new Convoy of Hope national team in Guatemala is receiving training to begin programs that will serve the most vulnerable in poor communities. By working with the local church we will see community transformation through compassion and gospel ministry.

#### BAHAMAS

John recently traveled to the Bahamas to assess the damage and work with the Disaster Team and key partners like the AG National Church to begin working on a long range recovery plan.

Pastor Rudy sheltered thirty people from his congregation in his home. While everything around was devastated, including the church, his home was miraculously untouched! [Click for video.](#)
